Designer Architect, Leo A. Daly, Planning, Architecture, Engineering, and Interiors, Washington, DC, 2004-2007. Selected projects include:

- **Permanent Mission of the People's Republic of China to the UN, New York, NY** Responsible for the spatial programming of industrial kitchens, 115 apartments, the conference room and the lobby, as well as the finishes for every unit and conference room of a 17-story building. The building will serve as the residence for the permanent mission staff and the Ambassador of the People's Republic of China to the UN. *Construction completed in January 2009.*
- **National Capitol Planning Commission, South Capitol Street Corridor Expansion, Washington, DC** Worked as an urban planner on the design, urban analysis, spatial programming options and presentation materials for this urban expansion project in Washington, DC. Project aims to combine the city's Architects of the Capitol, South Capitol Street, and Waterfront zone expansion plans into one urban planning program. The project uses an analysis of urban possibilities arising from merging the Federal Facilities Studies, the Memorial and Museum Master Plan, and the Cultural and Open Space Study. *Implemented*
- **Semi-Finalist, Fannie Mae Headquarters, Washington, DC** Competition by invitation. Worked as a designer as part of the design competition team. The competition aimed at revitalizing and planning the South West Quadrant of Washington, DC. Designed the urban corridor and residential interaction zones for the development that spans four blocks. Development consists of two Fannie Mae headquarter towers, affordable housing components, commercial facilities, and open spaces.
- **The Eckington, Washington, DC** Worked on design development, construction drawings, and presentation booklets for this hotel in a developing part of the city as part of a four-person team. The hotel merges a new metro station with a public plaza, bringing city life into the developing neighborhood. The project also aims to strengthen the community by creating urban interaction and moving the private use into the urban fabric of this revitalizing neighborhood. *Construction Completed.*

Designer, SGA Architects, Inc., Bethesda, MD, 2002-2004.

Cannon Design, Washington DC., 2001-2002
