Project

The project entitled "Computer Vision Aided Store Location Detection/Valuation" of Migros Tic. A.Ş. has been accepted by and received full support of TÜBİTAK - TEYDEB (TÜBİTAK - The Chairmanship of Technology and Innovation Support Programs). The aim of this program is to support the development of industrial research and technology and to promote the innovation and the university-industry collaboration. The project will be carried out under the direction of **Dr. Zevnep Turgav**, member of Industrial Advisory Board of the Department of Industrial Engineering, and under the consultancy of **Dr. Hande Küçükaydn** from the Department of Industrial Engineering.

Cooperations

The 3+2 Cooperative Education Program agreement including the program specific details between the Department of Industrial and Systems Engineering of Rutgers University, USA and the Department of Industrial Engineering of MEF University has been signed by **Dr. Muhammed Sahin**, the Rector of MEF University and **Dr. Mehmet Fevzi Ünal**, the Dean of Engineering Faculty of MEF University on May 23, 2016.

Conferences and Symposium

The Department of Civil Engineering was honored to co-organize the "Prof. Dr. M. Hasan Bodurođlu Symposium" held in conjunction with the Turkish Chamber of Civil Engineers, on May 9 - 10, 2016. The late Professor Bodurođlu was remembered through a series of invited talks, focusing on the upcoming Design Codes of Turkey. Professor Bodurođlu is dearly missed.

Visits

Dr. Muhammed Sahin and **Dr. Derin Ural** from the Department of Civil Engineering hosted Dr. Mustafa Erdik from Bođaziçi University, and Dr. Kutay Özaydın from Yıldız Technical University on May 17, 2016. They discussed future collaborative projects in Engineering.

Airforce Academy visited MEF University and met with **Dr. Muhammed Sahin** from the Department of Civil Engineering and **Dr. Mehmet Fevzi Ünal** from the Department of Mechanical Engineering on May 26, 2016. They obtained information on the Flipped Learning implementations at MEF University.

Nasuh Mahruki visited MEF University and met with **Dr. Muhammed Sahin** and **Dr. Derin Ural** from the Department of Civil Engineering. Nasuh Mahruki obtained information on the Flipped Learning implementations at MEF University on May 31, 2016.

Faculty Seminar

Dr. Dađhan Gökdel presented a seminar entitled "Design and Fabrication of a Biopsy Catheter Capable of Doing In-vivo Cell Imaging for Early Cancer Detection" on May 6, 2016. Received his B.S. degree in Electrical & Electronics Engineering from Bilkent University, Ankara in 2004 and his M.S. and Ph.D degrees in Electrical Engineering from Bođaziçi University, Istanbul, in 2007 and 2011, respectively, with a focus on microelectronics & microsystems. In September 2011, he joined the Department of Biomedical Engineering of University of Texas at Austin as a postdoctoral research associate where he worked on the design, fabrication and characterization of Optical and Biomedical MEMS & Photonics Microsystems. Currently, he is an assistant professor in the Electrical & Electronics Engineering Department of Istanbul Bilgi University.
